

January 7, 2021

Dear Patient:

We are pleased to advise you that effective April 1, 2021, Arlington Musculoskeletal Center will join with and into OrthoVirginia.

This connects Dr. Danaceau with an outstanding group of orthopedic specialists throughout Richmond, Northern Virginia, Lynchburg and Virginia Beach.

This transaction is good news for everyone involved, especially for patients:

- With a broad network of specialists, OrthoVirginia is committed to improving quality, cost, safety and outcomes for patients.
- As a large medical group, we'll be better positioned to invest in and implement state-of-the-art technology to enhance care.
- We will remain an independent physician practice, which means that our physicians will be in control of our patients' medical care.

Other than the name change, our day-to-day clinical and surgical operations will not change. Our physician and team members will continue to provide the same excellent care for our patients at our existing location. We believe this transaction will enhance our ability to deliver the highest quality, affordable healthcare to the communities we serve.

If you wish to continue to be treated by Dr. Danaceau at OrthoVirginia, please complete the form included on the next page to transfer your medical record to our new electronic medical record system.

If you wish to continue your care outside of Arlington Musculoskeletal Center or OrthoVirginia, you may have your records transferred to another practice. Pursuant to Virginia Code § 32.1-127.1:03, upon receipt of written authorization, we will arrange to transfer your patient records to you or a designated provider within a reasonable timeframe and nominal fee, if applicable.

On behalf of myself and the staff at Arlington Musculoskeletal Center, thank you for the confidence and trust you have placed in us for your care. We remain committed to your satisfaction and to helping you return to a normal and active lifestyle.

Sincerely,
Arlington Musculoskeletal Center
