“Our Family Taking Care of Your Family”

More than one-third of U S adults have obesity. Obesity carries with it various diseases such as stroke, heart disease, type 2 diabetes, hypertension, sleep apnea, and more. Treating obesity alone can be extremely difficult. The Silver Health CARE Weight-Loss team is here to help you be successful with weight loss and conquer obesity.

HEALTH CARE YOU CAN TRUST!

Silver Health CARE is the oldest continuously operating practice in our region of New Mexico, since 1975, with a long-standing commitment to bringing quality healthcare to our communities.

We pride ourselves on our medical expertise, delivered with compassion and understanding.

We strive to meet your needs 24/7. As a group practice in a rural area, we have brought together a first-rate staff of practitioners. We work together so that you can expect the highest quality healthcare. At Silver Health CARE, we are a team entirely committed to you.
