- To aid patients in achieving their maximum potential within their capabilities
- To accelerate patient's\client's gradual return to health and strength after illness, and reduce the length of the functional recovery

General Dentistry Consent

I, the undersigned, hereby give consent to the following services provided by Community First Health Centers Dental Clinic as recommended by the Dentist and discussed with me prior to the service.

Fillings: Filling treatment and that during treatment the size of the filling(s) may become larger than originally planned which may require a crown. I also understand that there are no other treatment options for fillings and if left untreated there is a possibility of the tooth breaking, decay getting deeper, or the decay spreading to other teeth.

Crowns: I understand that sometimes it is not possible to match the color of teeth exactly with artificial teeth. I further understand that I will be wearing temporary crown(s), which may come off easily and that I must be careful to ensure that they are kept on until the permanent crowns are delivered. I understand that there will be additional charges for remakes due to my delaying of permanent cementation of a crown.

Alternative treatment:

It has been explained to me that the only alternative treatment available is a very large filling, known as a core build up. This treatment option can cause the tooth to fracture due to its size resulting in further treatment such as a root canal or ultimately the loss of the tooth.

Periodontal Treatment: I understand that if I am being treated for periodontal disease, this means I have a serious condition, causing gum and bone inflammation or loss and that it can ultimately lead to the loss of my teeth. I understand that there are no alternative treatment options for periodontal disease and I am aware that if left untreated this can result in: gum surgery and/or extractions of teeth.

Dentures and Partials: I understand the wearing of dentures/partials is difficult. Sore spots, altered speech, and difficulty in eating are common problems associated with dentures. Immediate placement of dentures after extractions may be painful. Immediate dentures will require multiple relines and/or a new definitive denture to be made while the tissue and bone heals; this is not included in the denture fee. In addition all types of dentures and partials often require a considerable amount of adjustments. I understand that failure to keep my delivery appointment may result in poorly fitted dentures. If a remake is required due to my delay of 30 days or more, I may be responsible for additional charges passed on to me.

I understand that dentistry is an inexact science and that therefore, reputable practitioners cannot properly guarantee results. I acknowledge that no guarantee or assurance has been made to me by anyone regarding the dental treatment(s) which I have requested and authorized. I hereby authorize any of the doctors, Dental Hygienists or dental assistants to proceed with and perform the dental restorations and treatments as indicated above and as explained to me. I understand that this is only an estimate and subject to modification depending on unforeseen or undiagnosed circumstances that may arise during the course of treatment. I understand that regardless of any dental insurance coverage I may have, I'm ultimately responsible for payment of any and all the dental fees.
