

South Carolina Internal Medicine is operating as normal. We are committed to caring for our patients and care teams and keeping all healthy. We are taking measures by increasing disinfection, requiring masks to be worn and hand sanitizer to be used before entering our suite.

In this time of uncertainty, it is best to stay calm, stay informed with accurate information, and follow recommendations to reduce your chances of catching any respiratory viruses.

If you feel you are exhibiting symptoms of COVID- 19, please utilize the following options:

**PRISMA HEALTH:**

Visit [PrismaHealth.org/VirtualVisit](https://PrismaHealth.org/VirtualVisit). Use promo code covid19 to be screened. They will issue further guidance following the screening.

**LEXINGTON MEDICAL CENTER:**

LMC has a tent set up outside its emergency department. You will be triaged and sent to a restricted area inside the ED for treatment if needed.

**MUSC:**

Patients may visit <https://campaigns.muschealth.org/virtual-care/index.html> to be virtually screened. Use promo code covid19 to be screened. If symptoms qualify, you will be directed to the nearest facility for testing.

**DHEC:**

For general questions and further direction, patients can call [1-855-472-3432](tel:1-855-472-3432).
